TECHNICAL SKILLS

Programming: TypeScript, JavaScript, HTML, CSS, C, C++, C#, JSON, RESTful API Development, SQLite, SQL, Arduino, Python (PyTorch, Pandas, NumPy, Machine Learning), MATLAB, Java
Frameworks: React.js, Next.js, React Native, Expo, Angular, Node.js, Express.js, ASP.NET
Testing: Jest, NUnit, Unit Testing, Integration Testing, Manual QA
Software and Tools: AWS, Azure, Firebase, Git, Postman, Visual Studio, Tableau, Linux

RELEVANT EXPERIENCE

Con Edison (*via Cognizant*) July 2025 – Present
Software Engineer Manhattan, NY

- Migrated EHS Design Review, an enterprise engineering approval system, from **Angular 8** to **Angular 21**, modernizing a legacy codebase serving thousands of Con Edison employees.
- Resolved **10+ weekly production incidents** across **6-10 enterprise utility applications** with same-day turnaround, maintaining high availability for thousands of internal business users on **Azure**-hosted infrastructure.
- Developed and maintained **RESTful APIs** using **ASP.NET/.NET Core** and **C#** to support backend functionality across multiple mission-critical utility systems.

Clientific (*clientific.app*) February 2026 – Present
Founder & Software Engineer Remote

- Founded and independently built a full-stack AI-powered SaaS platform for salon businesses, onboarding **11 businesses** and managing **105 customer records** across web and a native iOS app pending App Store approval.
- Engineered a bilingual AI phone and SMS receptionist using **Vapi**, **GPT-4.1**, and **Twilio** that autonomously handles bookings, reschedules, cancellations, and call transfers, capturing **49%** of appointments through AI alone and **63%** through automated and self-serve channels combined.
- Architected a full-stack production platform across web and iOS using **Next.js**, **React Native**, **Expo**, **PostgreSQL**, **Stripe Connect**, and **RevenueCat**, encompassing CRM, staff scheduling, walk-in check-in, deals, referrals, and analytics.

Software Engineer October 2024 – September 2025
ScarletWell New Brunswick, NJ

- Developed the ScarletWell application for the myRutgers website using **React Native & TypeScript**, delivering personalized wellness resources to **70,000+ students**.

Full-Stack Software Engineering Intern October 2024 – December 2024
Bunchful Enterprise New York, NY

- Led project to rebuild a company website using **Next.js**, **React.js**, **Tailwind CSS**, and **Firebase**, boosting website functionality, user experience, responsiveness, and navigation.

Software Engineering Intern September 2024 – November 2024
DAQ Electronics Piscataway, NJ

- Developed a support chatbot using **React.js** with **OpenAI integration** to automate customer support, reducing support time by **40%**.

Software Development Intern June 2023 – August 2023
ECPAT Piscataway, NJ

- Developed responsive internal web tools using **HTML**, **CSS**, and **JavaScript** to help staff log and track human trafficking cases, while redesigning the resource portal with a modern UI cutting content update time by **50%**.

PROJECTS

PetPal: Smart Robotic Petcare System React Native | Python | Raspberry Pi | Firebase

- Built a cross-platform **React Native** app with **TypeScript** and **Firebase**, allowing pet owners to monitor pets via live video, real-time notifications, and automation.
- Implemented a system using an **Arduino Uno** and **Raspberry Pi** for real-time sensor updates to track food levels, water availability, and pet activity, enabling remote syncing and automation through the mobile app.

AestheticScore Angular | Python | AWS

- Developed an **AI-powered** web app with **Angular** and **FastAPI**, deploying a deep learning model trained on **5,500+** facial images in **PyTorch**, achieving **97% accuracy**.
- Implemented a scalable **RESTful API** for real-time predictions, enabling secure file uploads, optimized model performance, and frontend-backend communication, while deploying the system on **AWS EC2**.

EDUCATION

Rutgers University New Brunswick, NJ
Bachelor of Science in Electrical & Computer Engineering

- GPA: 3.6/4.0 | Engineering Honors Academy | Dean's List
